## **DKSH equips Asia Pacific with packaging and material testing solutions from world leader Industrial Physics**

**DKSH and Industrial Physics, the world's leading manufacturer of packaging and material testing equipment, have signed a distribution agreement covering its wide range of brand portfolios for Asia Pacific.**

Zurich, Switzerland, June 6, 2019 – DKSH Business Unit Technology, the leading Market Expansion Services provider for technology companies seeking to grow their business in Asia, has partnered with the US American manufacturer Industrial Physics. The collaboration between DKSH and the world's leading provider of packaging and material testing equipment will span Australia, Korea, Malaysia, New Zealand, the Philippines, Singapore, Thailand and Vietnam.

DKSH will provide Industrial Physics with marketing and sales, distribution and logistics as well as after-sales services with a focus on industries, including food and beverage, electronics and automotive, paper, plastics, pharma and medical devices, paint and coatings as well as textiles.

Industrial Physics, headquartered in Boston, USA, is dedicated to helping industries meet the ever-increasing test and quality standards required by demanding regulators, consumers and manufacturers. The company's brand portfolio includes CMC-KUHNKE, Eagle Vision Systems, FIBRO system AB, Messmer Büchel, Systech Illinois, Ray-Ran, Testing Machines, Inc., TM Electronics, OxySense, TQC Sheen, Quality by Vision and United Testing Systems.

Jim Neville, President & CEO Industrial Physics stated: "We are excited about the cooperation with DKSH, the leading provider of technology equipment and solutions in Asia Pacific. We are sure that – given DKSH's local expertise and their in-depth knowledge of our targeted industries – we can successfully continue growing the business together."

Hanno Elbraechter, Head Business Unit Technology, DKSH commented: "By leveraging our unparalleled regional footprint, structured market development approach and our best-in-class after-sales services, we will ensure that we build a strong business for Industrial Physics. We look forward to working with Industrial Physics to grow the presence in these markets."
